The USA FEG

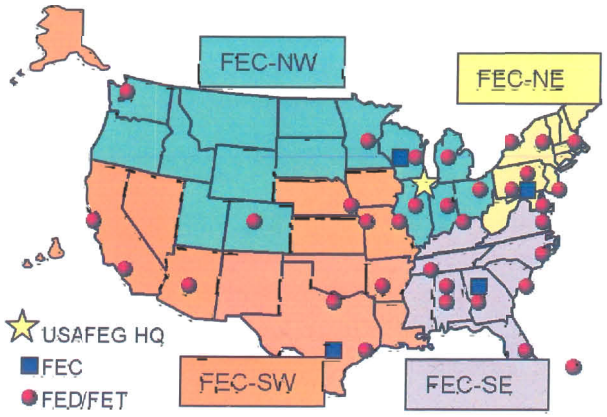
The USA FEG headquarters is located in Darien, IL.

The USA FEG is comprised of four Facility Engineer Centers (FEC) that support a number of Facility Engineer Teams (FET) and Detachments (FED) located throughout the United States.

The 30 FETs and 6 FEDs are staffed by senior engineering, environmental, and construction professionals. Unit organizations consist of:

FED: *1 - LTC, 4 - MAJ, 5 - CPT, 1 - MSG, 2 - SFC, 2 - SSG*

FET: *1 - LTC, 2 - MAJ, 1 - CPT, 1 - CW3, 1 - MSG, 1 - SFC*



POINTS OF CONTACT

USA FEG: *COL Alex Kozlov*

U.S. ARMY FACILITY ENGINEER GROUP (USA FEG)

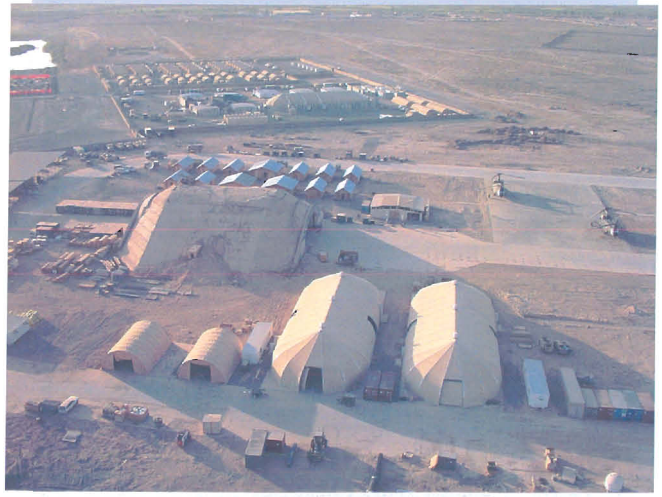
A PROFESSIONAL FACILITY ENGINEER FORCE SUPPORTING AMERICA'S JOINT FORCES WORLDWIDE!

MISSION

To provide indispensable engineering services to COCOMs, RRCs, and our nation with a ready and relevant capabilities based force of skilled engineers.

WE SUPPORT

- 416th ENCOM (CENTCOM, SOUTHCOM)
- 412th ENCOM (EUCOM, PACOM)
- USARC and Regional Readiness Commands
- U.S. Army Corps of Engineers
- Military Surface Deployment Distribution Command
- Joint Forces



PROFESSIONAL CAPABILITIES

Our senior officers and non-commissioned officers hold a large number of professional engineering, environmental, and construction management degrees. Almost one third of our personnel also work in engineering and construction related fields.

PEACETIME MISSIONS

Engineering and Environmental Facility Assessment

- Environmental Compliance Assessment System (ECAS)
- Facility structural assessment
- Repair and maintenance assessment and work orders
- Facility condition survey
- Arms vault structural certification
- HVAC system evaluation

Environmental Services

- Environmental Baseline Survey
- Compliance assistance visits
- Design
- Special Projects
- Environmental Training

Engineering and Construction Management Services

- Feasibility studies
- Designs and specifications
- Construction quality assurance
- Project management
- Energy audits

Other Services

- Port Surveys
- Vulnerability assessments

WARTIME MISSIONS

Base Camp Public Works Operations

- Master Planning
- Design
- Construction quality assurance
- Utilities systems design and management
- Power Distribution
- Repair and Maintenance
- Environmental management system
- Space Utilization

Environmental

- Environmental Baseline Survey
- Hazardous waste management
- Solid waste management
- Compliance Assistance

Design and Management

- Project management
- Quality assurance
- C2 facilities
- Roads
- Airfields
- Force Provider deployment
- Water wells and distribution systems
- Sewage and septic systems
- Force protection
- Contracting
- Procurement
