BUILDING STRONG®

## READY FOR A CHALLENGE?

Want a challenging career that gives you hands-on experience with medium-voltage electrical power generation and distribution equipment, plus an automatic promotion to SGT? The U.S. Army's Prime Power School Program offers this opportunity plus global travel.

- A year long course of intense electrical training at Fort Leonard Wood, Missouri, an accompanied PCS move
- This high level of academic and technical training is virtually unmatched in the Army
- Upon completion of the course, the Soldier is awarded 31-semester hours of credit from an accredited college
- Awarded the 12P MOS with an additional skill identifier (ASI) of Mechanical (S2), Electrical (S3), or Instrumentation (E5) specialty
- Graduates of the course are Army certified power plant operators
- Skills are very competitive in Post-Army Careers

Graduates of the Prime Power School receive promotion to SGT/E-5 through the SMAPP Program.

BEAR Reenlistment Program offers up to $20,000 to re-class to Prime Power Production Specialist.
