APPENDIX A
BUILDING INSPECTION FORMS

THIS PAGE WAS INTENTIONALLY LEFT BLANK

ECP Building Inspection Form
Newport Chemical Depot
Newport, Indiana

Building Number	**01-00722J**	**Building Name**	**Saw Shed**	**Category**	**1**
Entered					

Date		**Personnel Present**		**Phone Number**		**Years at Base**	
Time							

Structural Information

Area (sq ft)	629	**Building Description**	Corrugated metal on concrete pad
Year Built	1942		

Original Use	Storage, loaded RDX	**Building History**	
Current Use	Vacant	**Remodeling**	
Tenants			

Hazardous Materials and Petroleum Products Storage

No Hazardous Materials Present

Hazardous and Petroleum Waste Generation and Storage

No Hazardous Wastes Present

Storage Tanks

No Storage Tanks Present

Other Hazardous Information

No Other Hazardous Information

Spill: None observed

Non-CERCLA Information

No Asbestos, Lead-based Paint, PCBs, Radon, or Drinking Water at this Building

ECP Building Inspection Form
Newport Chemical Depot
Newport, Indiana

Building Number	**01-007708**	**Building Name**	**Guard House at Vehicle Gate 8**	**Category**	**1**
Entered					

Date	27-Aug-08	**Personnel Present**	Tammy Haug	**Phone Number**	765-245-4258	**Years at Base**	15
Time	14:45						

Structural Information

Area (sq ft)	80	**Building Description**	Cinder block on a concrete foundation
Year Built	1974		
Original Use	Guard house	**Building History**	
Current Use	Same as original use	**Remodeling**	
Tenants			

Hazardous Materials and Petroleum Products Storage

No Hazardous Materials Present

Hazardous and Petroleum Waste Generation and Storage

No Hazardous Wastes Present

Storage Tanks

No Storage Tanks Present

Other Hazardous Information

Ordnance	None	**Radioactives**	None
Biohazards	None	**Wastewater**	None
Solid Waste	None		
Other Hazardous Info			

Does building contain floor drains? ☐

Any other potential pathway that could result in a release to the environment?

Spill: None observed

Non-CERCLA Information

Lead-based Paint	None	**Radon**	No survey conducted
PCBs	None	**Drinking Water**	None
Other Information	No other information		

Not Surveyed for Asbestos

ECP Building Inspection Form
Newport Chemical Depot
Newport, Indiana

Building Number	01-00TC77	**Building Name**	Target Shed at Firing Range	**Category**	1
Entered					

Date	27-Aug-08	**Personnel Present**	Tammy Haug	**Phone Number**	765-245-4258	**Years at Base**	15
Time	15:00						

Structural Information

Area (sq ft)	140	**Building Description**	Corrugated steel on a concrete foundation
Year Built	1942		

Original Use	Target storage	**Building History**	
Current Use	Same as original use	**Remodeling**	
Tenants			

Hazardous Materials and Petroleum Products Storage

No Hazardous Materials Present

Hazardous and Petroleum Waste Generation and Storage

No Hazardous Wastes Present

Storage Tanks

No Storage Tanks Present

Other Hazardous Information

Ordnance	None	**Radioactives**	None
Biohazards	None	**Wastewater**	None
Solid Waste	None		
Other Hazardous Info			

Does building contain floor drains? ☐

Any other potential pathway that could result in a release to the environment?

Spill: None observed

Non-CERCLA Information

Lead-based Paint	None	**Radon**	No survey conducted
PCBs	None	**Drinking Water**	None
Other Information	No other information		

Not Surveyed for Asbestos

ECP Building Inspection Form
Newport Chemical Depot
Newport, Indiana

Building Number	01-014171	Building Name	Richmond Magazine 1	Category	1

Not Entered

Date		Personnel Present		Phone Number		Years at Base	
Time							

Structural Information

Area (sq ft)	1603	**Building Description**	Concrete foundation floor, side and rear walls. Front walls are wood with asbestos sheeting and siding. Roof is gypsum rock sheeting laid on wooden rafters. Earth mounds against rear and side walls.
Year Built	1942		
Original Use	Explosives storage	**Building History**	
Current Use	Inactive	**Remodeling**	
Tenants			

Hazardous Materials and Petroleum Products Storage

No Hazardous Materials Present

Hazardous and Petroleum Waste Generation and Storage

No Hazardous Wastes Present

Storage Tanks

No Storage Tanks Present

Other Hazardous Information

No Other Hazardous Information

Spill: None observed

Non-CERCLA Information

No Asbestos, Lead-based Paint, PCBs, Radon, or Drinking Water at this Building

Photograph 192. Concrete structure south of B Street, west of 13th Street B-99

STUDY SECTION 3

Photograph 193. Circular concrete structure, possibly a tank foundation, southwest of South Boulevard Entry Gate B-100
Photograph 194. Corrugated metal on east side of Little Raccoon Creek, south of Cull Avenue B-100
Photograph 195. Burson Cemetery B-101
Photograph 196. Circular concrete structure, possibly a tank foundation, approximately 100 feet northeast of Burson Cemetery B-101
Photograph 197. Concrete foundation, approximately 100 feet northeast of Burson Cemetery B-102
Photograph 198. Railroad ties along old railroad bed north of Burson Cemetery B-102
Photograph 199. Railroad ties along old railroad bed north of Burson Cemetery B-103
Photograph 200. Railroad ties along old railroad bed north of Burson Cemetery B-103
Photograph 201. Possible battery along old railroad bed, approximately 300 yards west of Highway 63 ..... B-104
Photograph 202. Concrete block with electrical wires and apparatus along railroad bed approximately 300 yards west of Highway 63 ..... B-104
Photograph 203. Close up of electrical wires and apparatus along railroad bed, approximately 300 yards west of Highway 63 ..... B-105
Photograph 204. Juliet Cemetery B-105
Photograph 205. Ceramic cylinders along south side of North Patrol Road, approximately 250 yards west of 10th Street B-106
Photograph 206. 55-gallon drums in wooded area south of North Patrol Road, approximately 250 yards west of 10th Street B-106
Photograph 207. 55-gallon drums in wooded area south of North Patrol Road, approximately 250 yards west of 10th Street B-107
Photograph 208. 55-gallon drums in wooded area south of North Patrol Road, approximately 250 yards west of 10th Street B-107

Photograph 209. 55-gallon drums in wooded area south of North Patrol Road, approximately 250 yards west of 10th Street B-108
Photograph 210. Pile of ceramic cylinders in wooded area south of North Patrol Road, approximately 250 yards west of 10th Street B-108

STUDY SECTION 4

Photograph 211. Mounds in wooded area west of 14th Street, near Central Avenue B-109

STUDY SECTION 5

Photograph 212. Pump Station No. 2, corner of 14th Street and Acid Area Road B-110

STUDY SECTION 6

Photograph 213. Metal cans/drums in eastern portion of wooded area south of Cull Avenue B-111
Photograph 214. Metal and wooden debris in central portion of wooded area south of Cull Avenue B-111
Photograph 215. Concrete rectangular structure with spigot and pipe leading to the exterior in western portion of wooded area south of Cull Avenue B-112
Photograph 216. Concrete wall for drainage pipe support in wooded area, north of Cull Avenue and east of 12th Street B-112
Photograph 217. 55-gallon drum in wooded area, north of Cull and west of 12th Street B-113
Photograph 218. Close up of black, tar-like substance inside of 55-gallon drum B-113
Photograph 219. Mounds in wooded area, north of Cull and west of 12th Street B-114
Photograph 220. Gravel pathway and mounds, old railroad bed, north of South Boulevard, between 12th Street and 14th Street B-114
Photograph 221. "Bookends" associated with smokeless powder project B-115
Photograph 222. Mounds with piles of concrete, metal, and plastic rubble in the distance, west of 11th Street, between HH Street and Central Avenue B-115

STUDY SECTION 7

Photograph 223. Concrete conduits north of Cull Road, east of Little Raccoon Creek B-116
Photograph 224. Mound directly west of Demilitarization Incinerator/Scrap Yard, east of Little Raccoon Creek B-116
Photograph 225. Mound directly west of Demilitarization Incinerator/ Scrap Yard, east of Little Raccoon Creek B-117
Photograph 226. Concrete pipe support east of Little Raccoon Creek, north of Demilitarization Incinerator/Scrap Yard B-117
Photograph 227. Drums, tires, metal, wire, and glass west of DWBG, east of Little Raccoon Creek B-118
Photograph 228. Drums, tires, metal, wire, and glass west of DWBG, east of Little Raccoon Creek B-118
Photograph 229. Drums, tires, metal, wire, and glass west of DWBG, east of Little Raccoon Creek B-119
Photograph 230. Drums, tires, metal, wire, and glass west of DWBG, east of Little Raccoon Creek B-119
Photograph 231. Mound of debris near DWBG B-120
Photograph 232. Drum just south of South Boulevard on west bank of Little Raccoon Creek B-120
Photograph 233. Drum just south of South Boulevard on west bank of Little Raccoon Creek B-121
Photograph 234. Old home foundation just south of South Boulevard on hill above west bank of Little Raccoon Creek B-121

Photograph 235. Concrete structure just south of South Boulevard on hill above west bank of Little Raccoon Creek near old home foundation B-122
Photograph 236. Pile of railroad ties approximately 100 feet east of Little Raccoon Creek and 100 feet north of South Boulevard B-122
Photograph 237. Pipe in wooded area east of Closed Sanitary Landfill, just west of eastern installation fence B-123
Photograph 238. Large concrete conduits in wooded area south of South Boulevard approximately 0.2 miles west of Little Raccoon Creek B-123
Photograph 239. Old road or railroad bed between South Boulevard and Cull Avenue west of Little Raccoon Creek B-124
Photograph 240. Pile of utility poles in wooded area near creek bed approximately 100 feet west of Little Raccoon Creek and south of South Boulevard B-124
Photograph 241. Second pile of utility poles in wooded area near creek bed approximately 100 feet west of Little Raccoon Creek and south of South Boulevard B-125

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

FEDERAL RECORDS

DOD: Consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

A review of the DOD list, as provided by EDR, and dated 12/31/2004 has revealed that there is 1 DOD site within approximately 3 miles of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

FEDERAL RECORDS

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NPL RECOVERY: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994
Date Made Active in Reports: 03/30/1994
Number of Days to Update: 56

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 08/09/2006
Date Data Arrived at EDR: 09/21/2006

Telephone: 703-603-8960
Last EDR Contact: 12/19/2006
Next Scheduled EDR Contact: 03/19/2007
Data Release Frequency: Quarterly

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 10/10/2006
Date Data Arrived at EDR: 10/25/2006

Data Release Frequency: Quarterly

RCRA: Resource Conservation and Recovery Act Information

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 11/04/2005

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

STATE AND LOCAL RECORDS

SHWS: List of Hazardous Waste Response Sites Scored Using the Indiana Scoring Model

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

DRYCLEANERS: Drycleaner Facility Listing

A list of drycleaners involved in the Indiana 5-Star Environmental Recognition Program. It is a voluntary program that ranks participating drycleaners on a scale of one to five stars. The program recognizes those drycleaners willing to do more for the environment and worker safety than the rules require. These drycleaners are going above and beyond the rules to protect the environment, their employees and their neighbors and customers.

EDR PROPRIETARY RECORDS

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2004
Date Data Arrived at EDR: 02/17/2006

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: PennWell Corporation
Telephone: (800) 823-6277
This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

NEWPORT CHEMICAL DEPOT
3000 S STATE RD 63
HILLSDALE, IN 47928

TARGET PROPERTY COORDINATES

Latitude (North):	39.85080 - 39° 51' 2.9''
Longitude (West):	87.4502 - 87° 27' 0.7''
Universal Tranverse Mercator:	Zone 16
UTM X (Meters):	461486.5
UTM Y (Meters):	4411085.0
Elevation:	618 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	39087-G4 DANA, IN
Most Recent Revision:	1983

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

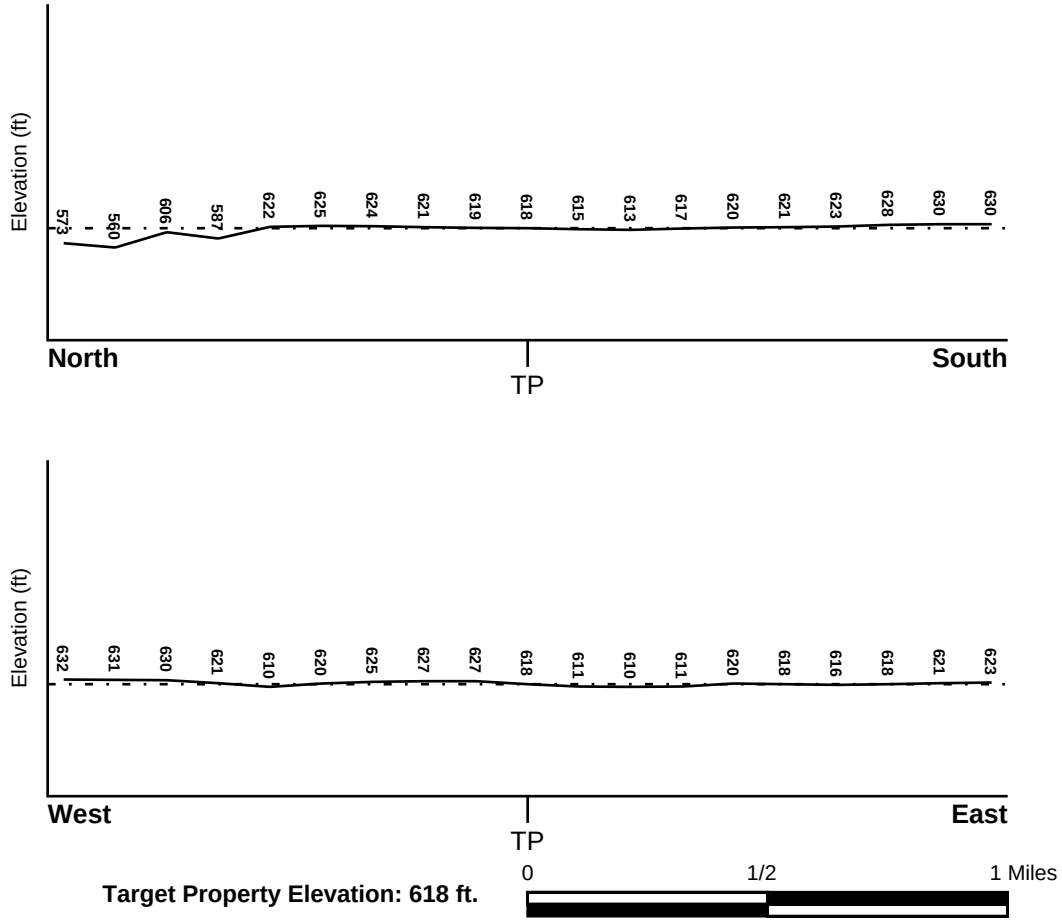
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ESE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
VERMILLION, IN	Not Available

Flood Plain Panel at Target Property: Not Reported

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
DANA	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Ragsdale

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Poorly. Soils may have a saturated zone, a layer of low hydraulic conductivity, or seepage. Depth to water table is less than 1 foot.

Hydric Status: Soil meets the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 0 inches

Depth to Bedrock Max: > 0 inches

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	16 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 8.40 Min: 7.40
1	0 inches	13 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 7.30 Min: 6.10
2	16 inches	44 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 8.40 Min: 7.40

	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
2	13 inches	46 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 7.30 Min: 6.10
3	44 inches	60 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 8.40 Min: 7.40
3	46 inches	57 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 2.00 Min: 0.60	Max: 8.40 Min: 7.40
4	57 inches	80 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.20 Min: 0.02	Max: 8.40 Min: 7.40

Soil Map ID: 2

Soil Component Name: Starks

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly. Soils commonly have a layer with low hydraulic conductivity, wet state high in profile, etc. Depth to water table is 1 to 3 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 0 inches

Depth to Bedrock Max: > 0 inches

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

RADON

State Database: IN Radon
Source: Department of Health
Telephone: 317-233-7148
Radon Test Results

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR NEPACheck® DESCRIPTION

The National Environmental Policy Act of 1969 (NEPA) requires that Federal agencies include in their decision-making processes appropriate and careful consideration of all environmental effects and actions, analyze potential environmental effects of proposed actions and their alternatives for public understanding and scrutiny, avoid or minimize adverse effects of proposed actions, and restore and enhance environmental quality as much as possible.

The EDR NEPACheck provides information which may be used, in conjunction with additional research, to determine whether a proposed site or action will have significant environmental effect.

The report provides maps and data for the following items (where available). Search results are provided in the Map Findings Summary on page 2 of this report.

Section	Regulation
Natural Areas Map	
• Federal Lands Data:	
- Officially designated wilderness areas	47 CFR 1.1307(1)
- Officially designated wildlife preserves, sanctuaries and refuges	47 CFR 1.1307(2)
- Wild and scenic rivers	40 CFR 6.302(e)
- Fish and Wildlife	40 CFR 6.302
• Threatened or Endangered Species, Fish and Wildlife, Critical Habitat Data (where available)	47 CFR 1.1307(3); 40 CFR 6.302
Historic Sites Map	
• National Register of Historic Places	47 CFR 1.1307(4); 40 CFR 6.302
• State Historic Places (where available)	
• Indian Reservations	
Flood Plain Map	
• National Flood Plain Data (where available)	47 CFR 1.1307(6); 40 CFR 6.302
Wetlands Map	
• National Wetlands Inventory Data (where available)	47 CFR 1.1307(7); 40 CFR 6.302
FCC & FAA Map	
• FCC antenna/tower sites, AM Radio Towers, FAA Markings and Obstructions, AM Radio Interference Zones, Airports, Topographic gradient	47 CFR 1.1307(8)

WETLANDS CLASSIFICATION SYSTEM

National Wetland Inventory Maps are produced by the U.S. Fish and Wildlife Service, a sub-department of the U.S. Department of the Interior. In 1974, the U.S. Fish and Wildlife Service developed a criteria for wetland classification with four long range objectives:

- to describe ecological units that have certain homogeneous natural attributes,
- to arrange these units in a system that will aid decisions about resource management,
- to furnish units for inventory and mapping, and
- to provide uniformity in concepts and terminology throughout the U.S.

High altitude infrared photographs, soil maps, topographic maps and site visits are the methods used to gather data for the productions of these maps. In the infrared photos, wetlands appear as different colors and these wetlands are then classified by type. Using a hierarchical classification, the maps identify wetland and deepwater habitats according to:

- system
- subsystem
- class
- subclass
- modifiers

(as defined by Cowardin, et al. U.S. Fish and Wildlife Service FWS/OBS 79/31. 1979.)

The classification system consists of five systems:

1. marine
2. estuarine
3. riverine
4. lacustrine
5. palustrine

The marine system consists of deep water tidal habitats and adjacent tidal wetlands. The riverine system consists of all wetlands contained within a channel. The lacustrine systems includes all nontidal wetlands related to swamps, bogs & marshes. The estuarine system consists of deepwater tidal habitats and where ocean water is diluted by fresh water. The palustrine system includes nontidal wetlands dominated by trees and shrubs and where salinity is below .5% in tidal areas. All of these systems are divided in subsystems and then further divided into class.

National Wetland Inventory Maps are produced by transferring gathered data on a standard 7.5 minute U.S.G.S. topographic map. Approximately 52 square miles are covered on a National Wetland Inventory map at a scale of 1:24,000. Electronic data is compiled by digitizing these National Wetland Inventory Maps.

MODIFIERS

In order to more adequately describe wetland and deepwater habitats one or more of the water regime, water chemistry, soil, or special modifiers may be applied at the class or lower level in the hierarchy. The farmed modifier may also be applied to the ecological system.

WATER REGIME

Non-Tidal

- A Temporarily Flooded
- B Saturated
- C Seasonally Flooded
- D Seasonally Flooded/ Well Drained
- E Seasonally Flooded/ Saturated
- F Semipermanently Flooded
- G Intermittently Exposed
- H Permanently Flooded
- J Intermittently Flooded
- K Artificially Flooded
- W Intermittently Flooded/Temporary
- Y Saturated/Semipermanent/ Seasonal
- Z Intermittently Exposed/Permanent
- U Unknown

Tidal

- K Artificially Flooded
- L Subtidal
- M Irregularly Exposed
- N Regularly Flooded
- P Irregularly Flooded
- *S Temporary-Tidal
- *R Seasonal-Tidal
- *T Semipermanent -Tidal
- V Permanent -Tidal
- U Unknown

*These water regimes are only used in tidally influenced, freshwater systems.

Coastal Halinity Inland Salinity

- 1 Hyperhaline
- 2 Euhaline
- 3 Mixohaline (Brackish)
- 4 Polyhaline
- 5 Mesohaline
- 6 Oligohaline
- 0 Fresh
- 7 Hypersaline
- 8 Eusaline
- 9 Mixosaline
- 0 Fresh

pH Modifiers for all Fresh Water

- a Acid
- t Circumneutral
- i Alkaline

SOIL

- g Organic
- n Mineral

KEY CONTACTS & GOVERNMENT RECORDS SEARCHED

Various Federal laws and executive orders address specific environmental concerns. NEPA requires the responsible offices to integrate to the greatest practical extent the applicable procedures required by these laws and executive orders. EDR provides key contacts at agencies charged with implementing these laws and executive orders to supplement the information contained in this report.

National Register of Historic Places:
The National Register of Historic Places is the official federal list of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering, and culture. These contribute to an understanding of the historical and cultural foundations of the nation.

The National Register includes:
- All prehistoric and historic units of the National Park System;
- National Historic Landmarks, which are properties recognized by the Secretary of the Interior as possessing national significance; and
- Properties significant in American, state, or local prehistory and history that have been nominated by State Historic Preservation Officers, federal agencies, and others, and have been approved for listing by the National Park Service.

UNITED STATES OF AMERICA VS. 21,048.20 acres of land, Richard A.Block, et al. — JUDGMENT (315)

UNITED STATES OF AMERICA
IN THE DISTRICT COURT OF THE UNITED STATES
FOR THE SOUTHERN DISTRICT OF INDIANA
TERRE HAUTE DIVISION

United States of America, Petitioner	)	
v.	)	Civil No.76
21,048.20 acres of land, more or less, situate in Vermillion County, State of Indiana; Richard A.Block, et al, defendants.	)	

Bk 82 JD 167

Judgment on Declaration of Taking No.1

This cause coming on to be heard at this term of court, upon the motion of the Petitioner, the United States of America, to entera Judgment on Declaration of Taking No.1, filed in the above entitled cause on the 6th day of February, 1942, and for an order fixing the date when possession of the property herein described is to be surrendered to the United States of America, and upon consideration thereof and of the comdemnation petition filed herein, the Declaration of Taking, the statutes in such cases made and provided, the provisions of the Act of Congress approved February 26, 1931, (46 Stat.1421; 40 U.S.C.Sec.258 a), and acts supplementary thereto and amendatory thereof; the Act of Congress approved August 18, 1890 (26 Stat.316) as amended by the Acts of Congress approved July 2, 1917 (40 Stat. 241), and April 11, 1918 (40 Stat.518; 50 U.S.C.Sec.171), the Act of Congress approved March 11, 1941 (Public Law No.11-77th

Congress) and the Act of Congress approved April 5, 1941 (Public No.29-77th Congress) and it appearing to the satisfaction of the Court:

FIRST: That the United States of America is entitled to acquire property by eminent domain for the purposes as set out and prayed in said petition;

SECOND: That a petition in condemnation was filed at the request of the Secretary of War, the authority empowered by law to acquire the lands described in said petition, and also under authority of the Attorney General of the United States;

THIRD: That said petition and declaration of taking state the authority under which, and the public use for which said lands were taken, that the Secretary of War is the person duly authorized and empowered by law to acquire lands such as are described in the petition for military purposes; and that the Attorney General of the United States is the person authorized by law to direct the institution of such condemnation proceedings;

FOURTH: That a proper description of the land sought to be taken, sufficient for identification thereof, is set out in said declaration of taking;

FIFTH: That said Declaration of Taking contains astatement of the estate or estate in the said lands taken for said public use;

SIXTH: That a plat showing the lands taken is incorporated in said Declaration of Taking;

SEVENTH: That a statement is contained in said Declaration of Taking that the following sums of money are estimated by the said acquiring authority to be just compensation for said lands, to-wit:

Tract No.65,$4300.00; Tract No.70, $20,000.00; Tract No.75, $14,000.00; Tract No.76, $6700.00; Tract No.77, $6850.00; Tract No.78, $16,000.00; Tract No.97, $28,000.00; Tract No.98, $4000.00; Tract No.103, $46,000.00; Tract No.115,$40,000.00; Tract No.121, $4800.00; Tract No.122, $1400.00; Tract No.131, $14,500.00; Tract No.132, $2800.00; Tract No.133, $2700.00; Tract No.135, $5600.00; Tract No.137, $2500.00;Tract No.138, $10,200.00; Tract No.140, $7000.00; Tract No.142, $13,500.00; Tract No.170, $12,000.00; Tract No.172, $28,000.00; Tract No.173, $2700.00; Tract No.176,$21,000.00; Tract No.184, $18,350.00; Tract No.191, $4200.00; Tract No.202, $12,000.00; Tract No.207, $4200.00; Tract No.220, $6800.00; the gross sum estimated to be just compensation for the lands hereby taken is $360,100.00, and that sum was deposited in the Registry of this Court for the use of the persons entitled thereto,upon and at the time of the filing of the said declaration of taking;

EIGHTH: That a statement is contained in said declaryion of taking that the amount of the ultimate award of compensation for the taking of said property in the opinion of the said Secretary of War will be within any limits prescribed by Congress as to the price to be paid therefor;

NINTH: That heretofore on the 17th day of January, 1942, this Court at the time of the filing of the petition for condemnation herein and pursuant to the Act of Congress approved April 11, 1918, (40 Stat. 518; 50 U.S.C.Sec.171), entered an order granting the petitioner immediate and exclusive use and possession of certain lands described in said condemnation petition, including the lands described in said declaration of taking as Tracts Nos.65,70,75,76,77,78,115,121,122,part of 131, 132,133,137,202 and 207, with the understanding and upon the condition that the present occupants of said tracts of land may continue to enjoy the uninterrupted and peaceful possession and occupancy of any residences, barns and other outbuildings, including yards and barnyards, now occupied by them for a period of sixty (60) days from the date of said order.

It,is, therefore, this 6 day of February, 1942, ADJUDGED, ORDERED AND DECREED

THAT THE TITLE TO THE FOLLOWING DESCRIBED lands located in the County of Vermillion, State of Indiana, to-wit:-

Tract No.65: Beginning 35.5 rods east of the southwest corner of the southwest quarter of section 6, in township 16, north, of range 9 west, and running thence north 68 1/3 rods; thence East 81.65 rods; thence south 68 1/3 rods; thence west 81.65 rods to the place of beginning, containing 34.85 acres, more or less.

Also, beginning 35.5 rods East of the Northwest corner of the Northwest quarter of Section 7, in Township 16 North, of Range 9 West, and running thence East 44.5 rods, more or less, to the Northeast corner of the West half of said quarter section; thence South 40 rods; thence west 44.5 rods; thence North 40 rods to the place of beginning, containing 11.15 acres, more or less. Containing in all 46 acres, more or less, in Vermillion County, Indiana.

Tract No.70: The West half of the Northwest quarter of Section 8, in Township 16 North, of Range 9 West, containing 80 acres, more or less.

Also, the Southwest quarter of the Northwest quarter of Section 5, in Township 16 North, of Range 9 West, containing 40 acres, more or less.

Also, the West half of the East half of the Southwest quarter of Section 5, in Township 16 North, of Range 9 West, containing 40 acres, more or less.

Also, the West half of the Southwest quarter of Section 5, in Township 16 North, of Range 9 West, except 10 acres in the West part thereof described as follows, to-wit:- Commencing 44 rods North of the Southwest corner of said half quarter and running thence North 78 rods and 10 links; thence East 8 rods; thence South 19 degrees 30 minutes East 31 rods; thence South 5 degrees 30 minutes East 31 rods; thence South 5 degrees 30 minutes West 4 rods to the center of the road; thence Easterly with said road 25 rods more or less, to the Eugene Road; thence South 27 degrees West along said road 27 rods, more or less, thence west 15.36 rods; thence South 5 degrees 30 minutes West 17 rods; thence West 15 rods to the place of beginning; the residue herein containing 70 acres, more or less.

Containing in all 230 acres, more or less, in Vermillion County, Indiana. BK 82 PG 169

Tract No.75: The South half of the Southwest quarter of Section 4, in Township 16 North, of Range 9 West, containing 80 acres, more or less, in Vermillion County, Indiana.

Tract No.76: The North half of the Southwest quarter of Section 4, in Township 16 North, of Range 9 West, containing 80 acres, more or less, in Vermillion County, Indiana.

Tract No.77: The South half of the Northwest Quarter of Section 4, in Township 16 North, of Range 9 West, except beginning 14 feet North of the Southeast corner of said half quarter and running thence South 14 feet, thence West 14 feet, thence Northeast to the place of beginning, containing 80 acres, more or less, in Vermillion County, Indiana.

Tract No.78: The North half of the Northwest quarter of Section 4, in Township 16 North, of Range 9 West, containing 80 acres, more or less.

Also, the West half of the Northeast Quarter of Section 4, in Township 16 North, of Range 9 West, containing 80 acres, more or less.

Also, 27.50 acres of even width off the North end of the East half of the Northeast quarter of Section 4, in Township 16 North, of Range 9 West.

Also, beginning 14 feet North of center of Section 4, Township 16 North, of Range 9 West, and running thence South 14 feet; thence West 14 feet; thence Northeast to the place of beginning.

Containing in all 187.50 acres, more or less, in Vermillion County, Indiana.

Tract No.97: The West half of the Northeast quarter of Section 17, in Township 16 North, of Range 10 West North of the Harrison Boundary Line, containing 80 acres, more or less.

Also, the South half of the Southeast Quarter of the Northeast Quarter of Section 17, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 20 acres, more or less.

Also, the East half of the Southeast Quarter of Section 17, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 80 acres, more or less,

Also, the North half of the West half of the Southeast Fractional Quarter of Section 17, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 31.30 acres, more or less.

Also, all that part of the West half of the Southeast Quarter of Section 8, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, that lies South of the center of the Quaker Point Free Gravel road, containing 15 acres, more or less.

Also, the Northeast fractional Section 20, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, except 6.50 acres off the South end thereof, and also except the following, beginning on the north line of said fractional Section at the Southwest corner of the East half of Section 17, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, and running thence South 272. 9 feet, more or less, to the said Boundary Line; thence Northwesterly to the Section corner; thence east 348.8 feet, more or less, to the place of beginning, containing 1.08 acres, more or less; the residue herein containing 8.92 acres, more or less.

Also, beginning on the Harrison Boundary Line at a point 272.9 feet, more or less,

South of the Southwest corner of the East half of the Southeast quarter of Section 17, in township 16 North, of Range 10 West, North of the said boundary line, and running thence South 231.3 feet,more or less; thence east 295.6 feet,more or less, to said Boundary line; thence northwesterly along said line to the place of beginning, and being part of Section 14, in Township 16 North, of Range 10 West,South of the Harrisom Boundary Line, and containing 0.78 acre, more or less.

Containing in all 236 acres, more or less, in Vermillion County, Indiana.

Tract No.98: The South half of the Northeast quarter of the Northeast Quarter of Section 17, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 20 acres, more or less.

Also, the North half of the Southeast quarter of the Northeast quarter of Section 17, in Township 16, North of Range 10 West, North of the Harrison Boundary Line, containing 20 acres, more or less.

Containing in all 40 acres,more or less, in Vermillion County, Indiana.

Tract No.103: The West half of the Northwest quarter of Section 15, in Township 16 North, of Range 10 West, containing 80 acres, more or less.

Also, the Northeast quarter of Section 16, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 162.29 acres,more or less.

Also, the Northwest quarter of the Southeast quarter of Section 16, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 40.43 acres, more or less.

Also, the east half of the Southwest quarter of Section 16, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, containing 81.06 acres, more or less.

Containing in all 363.69 acres, more or less, in Vermillion County, Indiana.

Tract No.115: The Southwest quarter of Section 8, Township 16 North of Range 9 West, containing 160 acres, more or less. Also, the West half of the Northeast quarter of Section 8, Township 16 North, Range 9 West, containing 80 acres,more or less. Also, the East half of the Northwest quarter of Section 8, Township 16 North, of Range 9 West, excent the following tract to wit: Beginning at the Northwest corner of said half quarter and running thence East 42.18 rods; thence South 36.54 rods; thence West 42.18 rods;thence North 36.54 rods to the place of beginning, containing 10 acres,more or less, the residue containing 70 acres, more or less.

Containing in all 310 acres, more or less, in Vermillion County, Indiana.

Tract No.121: The West half of the Northwest quarter of Section 9,in Township 16 North, of Range 9 West, containing 80 acres,more or less.

Also, the Northwest Quarter of the Southwest quarter of Section 9, in Township 16 North, of Range 9 West containing 40 acres,more or less.

Containing in all 120 acres,more or less, in Vermillion County, Indiana.

Tract No.122: The Southwest Quarter of the Southwest Quarter of Section 9, in Township 16 North, of Range 9 West, except the following, beginning at the southwest corner of said Section 9, and running thence East 20 rods; thence North 32 rods; thence West 20 rods; thence South 32 rods to the place of beginning; the residue herein containing 36 acres,more or less, in Vermillion County, Indiana.

Tract No.131: The Northwest Quarter of Section 16, in Township 16 North, of Range 9 west containing 160 acres,more or less.

Also, the West half of the Southeast quarter of Section 16, in Township 16 North, of Range 9 West, containing 80 acres,more or less.

Also, the Southeast quarter of the Southeast quarter of Section 16, in Township 16 North, of Range 9 West, containing 40 acres,more or less.

Also, beginning at the northwest corner of the Northeast Quarter of Section 21, in township 16 North, of Range 9 West, and running thence south 69 rods; thence East 80 rods; thence North 69 rods; thence West 80 rods to the place of beginning, containing 34.50 acres,more or less.

Also, 5 acres in a square form in the Northwest corner ofthe Northeast Quarter of the Northeast quarter of Section 21, in Township 16 North, of Range 9 West.

Containing in all 319.5 acres,more or less, in Vermillion County,Indiana.

Tract No.132: The North half of the North half of the Southwest quarter of Section 16, in Township 16 North, of Range 9 West, containing 40 acres,more or less, in Vermillion County,Indiana.

Tract No.133: The South half of the North half of the Southwest quarter of Section 16, in Township 16 North, of Range 9 West, containing 40 acres, more or less, in Vermillion County,Indiana.

Tract No.135: The East half of the Northeast quarter of Section 17, Township 16 North, Range 9 West containing 80 acres more or less in Vermillion County, Indiana.

Tract No.137: The Southeast quarter of the southeast quarter of Section 17, Township 16 North, of Range 9 West, containing 40 acres,more or less, in Vermillion County, Indiana.

Tract No.138: The West half of the Northeast quarter of Section 17, Township 16 North, Range 9 West, containing 80 acres,more or less, in Vermillion County, Indiana.

BK 82 PG 170

Tract No.140: The East half of the East half of the Northwest Quarter of Section 17, Township 16 North, of Range 9 West, containing 40 acres, more or less, in Vermillion County, Indiana.

Tract No.142: The West half of the Northwest quarter of Section 17, Township 16 North, of Range 9 West, containing 80 acres,more or less. Also, the West half of the east half of the northwest quarter of section 17, township 16 north of range 9 west containing 40 acresmore or less.

Containing in all 120 acres, more or less, in Vermillion County, Indiana.

Tract No.170: The East half of the southeast quarter of section 22, in Township 16 North, of Range 10 West, South of the Harrison Boundary Line, containing 80 acres,more or less.

Also, the East half of the northwest quarter of the southeast quarter of Section 22, in Township 16 North, of Range ten West, South of the Harrison Boundary Line, containing 20 acres,more or less.

Containing in all 100 acres,more or less, in Vermillion County, Indiana.

Tract No.172: The Southwest quarter of the northwest quarter of section 23, in township 16 north, of range 10 west, South of the Harrison Boundary Line, containing 40 acres, more or less.

Also, the north half of the southwest quarter of section 23, in township 16 North, of Range 10 west, south of the Harrison Boundary Line, except 20 acres off the West end thereof containing 60 acres more or less.

Also, the south half of the southwest quarter of section 23, in Township 16 North, of Range 10 West south of the Harrison Boundary Line containing 80 acres,more or less.

Containing in all 180 acres,more or less, in Vermillion County, Indiana.

Tract No.173: The West half of the Northwest Quarter of the Southwest Quarter of Section 23, in Township 16 North, of Range 10 west south of the Harrison Boundary Line, containing 20 acres, more or less, in Vermillion County, Indiana.

Tract No.176: The East half of the Northeast quarter of Section 23, in township 16 north range 10 west South of the Harrison Boundary Line, containing 80 acres,more or less.

Also, the Southwest quarter of the Northeast quarter of Section 23, in township 16 north of range 10 west South of the Harrison Boundary Line, containing 40 acres more or less.

Containing in all 120 acres more or less in Vermillion County,Indiana.

Tract No.184: Beginning at the southwest corner of the Northwest fractional quarter of Section 24, in township 16 north of range 10 west south of the Harrison Boundary Line, and running thence North 2349 feet,more or less, to the point where the West line of said Section intersects the Westward extension of the North line of Section 27, in Township 16 North, of Range 10 West, North of the Harrison Boundary Line, thence east 2762 feet on said line to the center of the road; thence in a Southerly direction along said road to the Southeast corner of said Northwest fractional quarter of said Section 24, aforesaid; thence west 160 rods, more or less, to the place of beginning, containing 148.9 acres,more or less, in Vermillion County, Indiana.

Tract No.191: Beginning at the Southeast corner of the Southeast quarter of section 24, in Township 16 North of Range 10 West South of the Harrison Boundary Line, and running thence North 180 rods; thence West 35 5/9 rods; thence South 180 rods to the Section line, thence east 35 5/9 rods to the place of beginning, containing 40 acres,more or less, in Vermillion County, Indiana.

Tract No.202: The East half of the northwest quarter of Section 20, in Township 16 North, of Range 9 West, containing 80 acres, more or less.

Also, the West half of the Northeast quarter of Section 20, in Township 16 North, of Range 9 West, containing 80 acres,more or less.

Containing in all 160 acres,more or less, in Vermillion County,Indiana.

Tract No.207: The East half of theNortheast quarter of Section 20, in Township 16 north, of Range 9 West, except the following tract;Commencing 22 rods 14 feet east of the south west corner of the east half of the northeast quarter of section 20, and running thence north 134 feet; thence east 102 feet; thence south 134 feet;thence west to the place of beginning, containing 0.31 acres,more or less.

The residue herein containing 79.69 acres,more or less, in Vermillion County,Indiana.

Tract 220: The East half of the Northeast quarter of Section 21, in Township 16 North, of Range 9 West, except 25 acres of even width off the North end thereof, containing 55 acres,more or less.

Also, 46 acres off the south end of the West half of the northeast quarter of section 21, in Township 16 north, of range 9 west except 2⅔ acres out of the south part of said tract heretofore deeded to John Davis which deed is recorded in Deed Record Vol.40 of said county at page 294, said 2⅔ acres being described as follows: Commencing on the half section line at a point 17 rods and 16 links west of the southeast corner of the southwest quarter of the northeast quarter of section 21, in township 16 north of range 9 west and running thence north 11 degrees 30 minutes east to the center of the public highway; thence in a west and southwesterly direction along the center of said highway 44 rods and 15 links, more or less, to the east and west half section line, thence east 25 rods and 9 links,more or less, to the place of beginning.

Also, commencing at the southwest corner of the northwest quarter of section 22, in township 16, north of range 9 west and running thence east to the Newport and Hillsdale free gravel road; thence with the center of said road in a northwesterly direction to a point where said road intersects the section line dividing sections 21 and 22; thence south on said section line to the place of beginning, and containing 18 acres,more or less.

Containing in all 116.5 acres,more or less, in Vermillion County, Indiana.
in fee simple, subject, however to existing easements for public roads and highways, for public utilities for railroads and for pipe lines, vested in the United States of America, upon the filing of said declaration of taking and the depositing in the Registry of the Court of the said sum of $360,100.00 on the 6 day of February, 1942 at 4:00 o'clock P.M. the said lands are deemed to have been condemned and taken for the use of the United States of America and the right to just compensation for the property taken, upon the filing of the declaration of taking and making of the deposit, vested in the persons entitled thereto, and the amount of compensation shall be ascertainedand awarded in this proceeding and established by judgment herein pursuant to law, and

IT IS FURTHER ORDERED ADJUDGED AND DECREED That the former order of this Court entered on the 17th day of January, 1942, granting the petitioner immediate and exclusive use and possession of Tracts Nos.65, 70,75,76,77,78,115,121,122,part of 131,132,133,137 202 and 207 as above described, together with other lands, and subject to the right of the occupants of said tracts of lands to continue to enjoy uninterrupted and peaceful possession and occupancy of any residences, barns, and other outbuildings including yards and barnyards now occupied by them for a period of sixty (60) days from the date of said order, is hereby confirmed; and

It is further ORDERED ADJUDGED AND DECREED that the immediate and exclusive use and possession of Tracts Nos.97, 98. 103,135/138,140,142,170,172,173,176,184,191 and that part of tract 131 not included in said former order, and 220, as above described, be and the same is hereby given to the United States of America as ofthe 6 day of February,1942, with the understanding and upon the condition that the present occupants of said tracts of land may continue to enjoy uninterrupted and peaceful possession and occupancy of any residences, barns, and other buildings including yards and barnyards now occupied by them for a period of 40 days after this date, and this cause is held open for such other and furthervorders, judgments and decrees as may be necessary in the premises; and

It is further ORDERED that the United States Marshal be and he is hereby directed and instructed forthwith to serve a certified copy of this judgment upon any of the defendants now in possession of the above described premises, or if no such defendants are found in actual possession of said premises, then he is ordered to post such certified copy at a conspicuousplace upon said premises and forthwith make due return of said service to this court.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/30/07

Interviewee: Ronnie Baumann **Affiliation:** TVA

Title: Liaison Officer **Telephone No.:** 765-245-4006

☐ **Made Call** ☐ **Received Call** **Meeting at:** TVA Trailer

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Liaison Officer	2004-current	D&D support for former production facility
Supervisor of Janitorial Services	1998-2004	
Supervisor of Electrical and Mechanics, then Supervisor of Utilities	1970-1998	
Mechanic/fill lines	1961-1970	Worked fill lines in Building 144, was instrument mechanic with maintenance dept.

2. To the best of your knowledge, please describe the **history** of the site: Mr. Baumann provided targeted information based on specific questions from the interviewer. Mr. Baumann has previously been interviewed by SAIC in conjunction with the Chemical Plant RFI and by TLI in conjunction with the HRR. During this interview, the SAIC interviewer focused on questions raised in the HRR. Notes are provided at the end.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☐ Yes	☐ No	☐ Don't know
Hazardous materials	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☐ No	☐ Don't know

Please describe:

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Hazardous substances	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Ordnance/explosives	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe:

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

Mr. Baumann noted that filled rejected mines and rockets were taken to the demil room in Building 143 where holes were drilled in them and the agent was emptied out. Mr. Baumann had never heard that filled munitions were temporarily buried onsite (p. 4-89 of draft final HRR). Drained mines were detoxed in the scrap yard (demil. incinerator). Some detoxed scrap metal was sold. Everything agent contaminated was held in blue barrels and taken to an incinerator - either the cages at the DWBG or the demil. incinerator. Mr. Baumann was asked about filter cake from the deep well. He indicated that he was not sure where it was disposed of but that there were open trenches at the DWBG. Things that did not burn well (e.g., rubber suits) were disposed of at the DWBG trenches.

Mr. Baumann was asked about the "old acid basin" noted on a map in the HRR (figure 4-14). He did not know what the basin was used for and believed all chemical plant water drained to the K-9 basins. [The interviewer believes the old acid basin to be the former SWMU NAAP-11 or NAAP-12.]

Mr. Baumann has never heard about any rad waste being disposed of in the deep well. He did indicate that water injected in the deep well could have had VX concentrations of 10 ppm. 300 psi pressure was needed to overcome the head in the deep well.

Mr. Baumann was asked about information on page 4-90 of the HRR regarding leaking mines. The leaking mine issue was related to defective bursters that were sealed with a lead washer. Acceptable bursters were received and the facility resumed filling mines. Thousands were filled after the temporary cessation in 1962. There were leakers on all the lines except for the spray tanks. They filled 5-inch and 8-inch projectiles. The Step III area had a clean area, a "dirty" area and also a walkway. A test was conducted to see if workers could work without their masks - 10 employees worked without masks one day and were observed for ill effects by medical staff. No ill effects were noted. Workers carried atropine.

Mr. Baumann noted that Building 733-K only held mine components prior to their being filled. Mr. Baumann was asked about what the black, tarry, drummed substance found at the CDD [during the CMI; failed TCLP lead] might have been. He did not know, but did mention that there was a black tarry mastic material sprayed on the fuel oil tanks and BASTs .

Mr. Baumann was asked about the leaking tanker at the TNT-MA. Mr. Baumann noted that the TNT-MA was running one line and the seven kilns could not keep up with the red water being generated. An 8,000-gallon tanker truck was brought onsite to hold red water and it overflowed/spilled at the end of Line 1. Mr. Baumann pointed out the area on a map.

Mr. Baumann noted that the parking lot at the RDX-MA was used for filled TC storage and he showed the interviewer the area on a map. He noted that filled TCs were stored around Building 144 in the 1960s. He

was asked about the toxic storage pad mentioned on page 4-96 of the HRR and indicated that it might have been the pad near the deep well, but he was uncertain.

Mr. Baumann has hunted mushrooms onsite and did find asbestos siding on the ground north of the Memorial Chapel Cemetery. He notified Dennis Snoddy and it was taken care of. PCB capacitors were found near the RDX lines when PCB cleanup began at the facility. They were west of 10th street and they were not leaking. The old Power House containted PCB materials and they were cleaned up.

Mr. Baumann noted that machines in Building 144 contained rad sources used to check the agent level in the filled munitions. An X-ray booth was set up in Area 4 of the building. TVA destroyed the X-ray machine during the D&D of the Chemical Plant.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/29/07

Interviewee: Mary Beatty **Affiliation:** Mason & Hanger

Title: Head Nurse **Telephone No.:** 765-245-4227

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation @ Medical Office

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Head Nurse	since 1969	Medical Office

2. To the best of your knowledge, please describe the **history** of the site: Ms. Beatty was asked about medical waste. See Additional Information at the bottom of this form.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☐ Yes	☐ No	☐ Don't know
Hazardous materials	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☐ No	☐ Don't know

Please describe:

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know

Automotive batteries	☐ Yes	☐ No	☐ Don't know
Hazardous substances	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Ordnance/explosives	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe:

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☒ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

The Medical Office is located in Building 7700. Ms. Beatty is Head Nurse at the Medical Office and she also worked at the previous infirmary located in former Building 703.

Medical waste is picked up once per week by outside contractor.

Radiological waste was generated in the past. No radiological waste is currently generated.

Ms. Beatty indicated that the Army was responsible for the removal of radiological waste. She provided documentation of the removal of Cesium 137 sources.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, Indiana

Interview Date: 1/31/07

Interviewee: Terry Grindle **Affiliation:** Mason & Hanger

Title: Utility Operator **Telephone No.:** 765-245-4519

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation @ Building 402A

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Utility operator	Past 38 years	Utility operations across the entire facility, also a recreational mushroom hunter

2. To the best of your knowledge, please describe the **history** of the site: Mr. Grindle provided me with a tour of the pump house (412A) and reservoir (402A)

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe: Mr. Grindle described operations in 412A and 402A, which are used to bring water from the Ranney wells to the facility, store the water in the reservoir facility, pump water, and treat the water with chlorine. Water is used as process water, for fire lines, and drinking water. Water is also provided to the offpost jail. The reservoir is 16.5 feet deep, holds 7.8 MG, and the structure is inspected by divers.

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☐ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☐ Yes	☐ No	☐ Don't know

Petroleum products	☐ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☐ No	☐ Don't know

Please describe: Chlorine is stored at the facility (402A) and is the only chemical used currently. It is stored in a placarded building. Soda ash was used historically. The pump house and reservoir have been used since NECD was established in World War II.

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☒ No	☐ Don't know
Hazardous substances	☐ Yes	☒ No	☐ Don't know
Industrial batteries	☐ Yes	☒ No	☐ Don't know
Ordnance/explosives	☐ Yes	☒ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe: Mr. Grindle has never seen any ordnance, batteries, or anything he would deem a hazardous substance dumped onsite. He has hunted mushrooms at the facility and has never encountered anything suspicious in the woods.

6. How were **hazardous materials** used at the site disposed of? Please describe: Any chemicals used at the reservoir are used up or disposed of properly.

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☒ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site? ☐ Yes ☒ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**? ☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☒ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site? ☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

Mr. Grindle noted that the Government does a good job storing chemicals and wastes properly.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 2/1/07

Interviewee: Tammy Haug **Affiliation:** Mason & Hanger

Title: Environmentalist **Telephone No.:** 765-245-4258

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Environmentalist	Past 11 years	NECD installation

2. To the best of your knowledge, please describe the **history** of the site:

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

All USTs and ASTs are registered with IDEM. No OWSs are located on the installation.

There were 2 plants used for heavy water manufacturing. The Original Chemical Plant ran from 1942 through 1946. The second plant, south of the original, ran from 1951 through 1957.

Laundry processes occurred in 1940s and 1970s.

There was a 28-room hospital in the 1940s.

The Old Locomotive House (Building 718A) was removed during construction of NECDF. Petroleum-contaminated soil was discovered at that location.

Steam lines from boilers were 40 years old and were covered with asbestos. A new boiler system was installed in 1990s. When the new boiler system was installed, all the steam lines were removed.

The Old Power House (Building 401A) has PCB contamination in the concrete. The boilers have asbestos lining.

All buildings were built in the 1970s or prior to that date. Lead paint is a concern throughout the installation. Some buildings have heavy paint peeling.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/31/07

Interviewee: Len Helt **Affiliation:**

Title: Environmental Manager **Telephone No.:** 765-245-4352

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Environmental Manager	Past 22 years	various

2. To the best of your knowledge, please describe the **history** of the site: There are remnants on the installation from the days of heavy water production and the old smokeless powder project.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☒ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☒ Yes	☐ No	☐ Don't know

Please describe:

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know

Hazardous substances	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Ordnance/explosives	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe:

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☒ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☒ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☒ Yes ☐ No ☐ Don't know

Please describe: spills at the TNT-MA and RDX-MA were cleaned up, but sampling was not conducted

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)? ☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☒ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☒ Yes ☐ No

Please provide names: Stan Sinclair (x426) is knowledgable about railroad operations.

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

Mr. Helt was asked about the leaking tanker at the TNT-MA. Mr. Helt described the location to be at Line 1 between the N&P Building (Building 9511) and the settling basin behind the building. Mr. Helt indicated that the spill was cleaned up, but he is not aware of sampling associated with the spill.

Mr. Helt was asked about the circular structures that were observed in the wooded areas of Study Section 3. Mr. Helt indicated that these are foundations were constructed for tanks. However, these structures never were used.

Mr. Helt was asked about the rectangular basin that was observed in Study Section 6. Mr. Helt indicated that this structure was built for the smokeless powder project in 1943. The smokeless powder project was never completed.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 2/2/07

Interviewee: Bob Mathis **Affiliation:** Mason & Hanger

Title: Utility Operator **Telephone No.:** 765-245-4519

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation @ STP

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Utility Operator	since 1969	various

2. To the best of your knowledge, please describe the **history** of the site:

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☒ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☒ Yes	☐ No	☐ Don't know

Please describe:
Building 144 was used for filling rockets, mines, and tanks.

Building 715 was temporarily used for storage of VX sampling apparatus. This building is currently vacant.

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Hazardous substances	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Ordnance/explosives	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides	☒ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Tires	☒ Yes	☐ No	☐ Don't know
Any other waste materials	☒ Yes	☐ No	☐ Don't know

Please describe: See "Additional Information" below

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☒ Yes ☐ No

Please describe:
Mr. Mathis described past practices when trenches at the DWBG were dug in the ground and the bottoms were lined with railroad ties.

Sample bottles full of agent were in 55-gallon drums on a toxic storage pad alongside the trenches. There were approximately 50 to 75 drums. In 1970, the agent along with plastic rinses were poured into the trenches.

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☒ Yes ☐ No

Please provide names: Mr. Mathis recommended speaking with Ron Henton about radiological waste that was discovered during demolition of the RDX and TNT Acid Areas. An interview was conducted with Ron Henton to discuss radiological material.

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

No sampling activities have occurred at the RDX Acid Area.

Mr. Mathis was asked about the temporary burial of rockets and mines. He indicated that he is not aware of rockets or mines being buried until after the agent was removed.

Mr. Mathis was asked if a hospital was once located on the installation. He indicated that the current infirmary is located in Building 7700. Prior to that, an infirmary was located in Building 703, an administrative/office building. Building 703 was built in the 1950s and demolished in 2000. Mr. Mathis believes there was another medical location in the 1940s that may have been a hospital. He was not aware of the location.

Mr. Mathis indicated that asbestos removed from Lines 1 and 2 and sulfur left over from the Sulfuric Acid Regeneration Acid Area were buried in a pit. He was not aware of the location, but indicated that it was in the vicinity of the Chemical Plant and Sewage Treatment Plant.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/30/07

Interviewee: Gary Metcalf/ Scott Rowden **Affiliation:** Parsons

Title: Environmental Engineer/ Environmental Manager **Telephone No.:** 765-245-6047/ 765-245-5811

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECDF

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Gary Metcalf - Parsons Engineer	Past 2 years	NECDF
Scott Rowden - Parsons Environmental Manager	Past 10 years	NECDF

2. To the best of your knowledge, please describe the **history** of the site: Mr. Rowden indicated that petroleum-contaminated soil and OWSs were discovered in the ground during construction of the chemical demilitarization facility. The property formerly was used as a paint shop, carpenter shop, plumbing shop, locomotive house, and railroad maintenance building.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☒ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☒ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☐ Yes	☒ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☒ No	☐ Don't know

Please describe: Storage tanks for hydrolysate, spent caustic (pH of 13.5), and hypochlorite decon solution

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Hazardous substances	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Ordnance/explosives	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe:

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☒ Yes ☐ No ☐ Don't know

Please describe:
Fuel was released from the lines of a standby diesel generator. The 50 to 100-gallon fuel spill occurred in 2003. Contaminated soil was removed.
Agent was released onto the floor of the Tox Cube. The 30 gallon agent spill occurred in 2005. The spill did not reach the soil.

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☒ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☒ Yes ☐ No ☐ Don't know

Please describe:
Petroleum-contaminated soil was removed

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

NECDF has an air emissions permit and NPDES general permit for stormwater discharge (no discharge of process water).

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/31/07

Interviewee: John Musick **Affiliation:**

Title: Fire Inspector/Hunter **Telephone No.:**

☐ **Made Call** ☐ **Received Call** **Meeting at:** Fire Department Annex

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight

2. To the best of your knowledge, please describe the **history** of the site: Mr. Musick has hunted in all areas of the installation and has not observed anything suspicious.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☒ Yes	☐ No	☐ Don't know
Motor repair facility	☒ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☒ No	☐ Don't know
Photo developing laboratory	☐ Yes	☒ No	☐ Don't know
Plating shop	☐ Yes	☒ No	☐ Don't know
Medical or dental facility	☒ Yes	☐ No	☐ Don't know
Junkyard or landfill	☒ Yes	☐ No	☐ Don't know
Training area	☒ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☒ Yes	☐ No	☐ Don't know

Please describe: A fueling station, motor pool, medical facility, and waste treatment facility are currently at the installation. Landfills and fire training area are no longer used.

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☒ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☒ Yes	☐ No	☐ Don't know

Please describe: Asbestos, batteries, hazardous materials, pesticides, petroleum products, and radioactive material have been stored at NECD in the past.

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Hazardous substances	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Ordnance/explosives	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☒ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☒ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe: Asbestos, batteries, hazardous materials, explosives, and petroleum products were previously dumped at various locations.

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☒ Yes ☐ No ☐ Don't know

Please describe: There is a small arms range and a skeet range on the installation.

12. Was any of the property used for **fire training**? ☒ Yes ☐ No ☐ Don't know

Please describe: Mr. Musick indicated that the fire training pit is located south of Building 710 and west of the sand pit. There is a depression in the ground. It was used in the late 1960s. Fuel and gasoline were used for burning.

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

Mr. Musick was asked about the black tarry substance found in drums in the CDD area. He suggested that this may have been railroad ties that had been burned. The interviewer discussed that this black tarry substance failed TCLP for lead during the CMI. Mr. Musick indicated that lead was used in the acid process in the RDX acid area. Rolls of lead had been found near the water tower and in the weeds near the southeast corner of Building 713B.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/30/07

Interviewee: Kevin Rudduck **Affiliation:** NECDF

Title: Engineer **Telephone No.:** 765-245-6017

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECDF

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Engineer	since 2001	NECDF
Environmental Manager	1995 - 2001	Army

2. To the best of your knowledge, please describe the **history** of the site: Mr. Rudduck was interviewed along with Mr. Metcalf and Mr. Rowden. Mr. Rudduck provided the following details in addition to the information provided on the interview form for Mr. Metcalf/Mr. Rowden.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☐ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☐ No	☐ Don't know

Please describe:
Building 729A, Building 2033 (Quonset hut), and Buildings 1401A and 1401B are permitted storage areas. Buildings 729A and 2033 are lined storage for 1X waste. Buildings 1401A and 1401B are not lined and are used to store dry carbon waste. A 90-day hazardous storage and treatment unit is located in the CDB and is used for 3X waste or better.

Bydrolysate, spent caustic, and hypochlorite decon solution is stored in tanks. Minor spills of hydrolysate have occurred.

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Hazardous substances	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Ordnance/explosives	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe:

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☒ Yes ☐ No ☐ Don't know

Please describe:
Over 30 gallons of spent agent was released onto the floor of the Tox Cube in 2005.

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☒ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☒ Yes ☐ No ☐ Don't know

Please describe:
Petroleum-contaminated soil was removed

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 2/1/07

Interviewee: Dennis Snoddy **Affiliation:** Mason & Hanger

Title: Engineering Tech/Asbestos Manager **Telephone No.:** 765-245-4269

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Various	since 1969	NECD installation

2. To the best of your knowledge, please describe the **history** of the site:

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☒ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☐ No	☐ Don't know

Please describe: Mr. Snoddy discussed prior activities at NECD and the storage of asbestos, batteries, pesticides, hazardous materials, and petroleum products.

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know

Hazardous substances	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Ordnance/explosives	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☐ Yes	☐ No	☐ Don't know

Please describe: Mr. Snoddy mentioned that asbestos, batteries, explosives, hazardous materials and petroleum products have been buried in wooded areas at NECD and along Little Raccoon Creek.

6. How were **hazardous materials** used at the site disposed of? Please describe: The deep well and the chemical acid basin south of Building 144 were used in the past

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☒ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☒ Yes ☐ No

Please describe: Mr. Snoddy provided the following locations as being reportedly used for asbestos burial.

- North of the Power House, west of ash/coal piles, construction debris was buried within a fenced area.
- Along Little Raccoon Creek, from CDD to DWBG
- SWMU 26, Trench 4, rubble from RDX and asbestos from heavy water plant was disposed.
- CDD, NAAP-28, asbestos from RDX Manufacturing was buried.
- First Street and Burning Ground Road, friable asbestos from heavy water plant demolition was buried (one to eleven? acres).
- A pipe buried south of Building 144 was found to contain asbestos.
- Buried asbestos was scattered throughout about 138,053 square feet located south of the scrap yard. Other highly suspect areas exist south of the Building 144 area as well as north of Building 401A.

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

Mr. Snoddy was asked about the deconstruction of the RDX-MA. The buildings were burned and the underground piping was left in place. Mr. Snoddy believes that the presence of explosives in the underground piping is possible.

Mr. Snoddy was asked about radiological waste being disposed of in the deep well. Mr. Snoddy indicated that he had heard that radiological waste was disposed of (he was not aware of the source) as well as small quantities of pure agent, bleached agent, and caustic material. Disposal activities continued until 1968 when the well was capped.

Mr. Snoddy indicated that an asbestos survey has been completed. Asbestos is present in floor tile, mastic, roofing, and transite siding. He indicated that friable asbestos is present in abandoned piping at the sewage treatment plant. There has been evidence of asbestos disposal along Little Raccoon Creek. Steel bands that are used for asbestos insulation were found in that area.

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/31/07

Interviewee: Gary Winn **Affiliation:**

Title: Fire Chief **Telephone No.:** 765-245-4733

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD installation @ Fire Department Annex

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
NECD employee	past 28 years	Various
Fire Chief	past 3 years	NECD Fire Department

2. To the best of your knowledge, please describe the **history** of the site: The NECD Fire Department responds to approximately 89 calls per year (includes ambulance, fire, and false alarms).

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☒ Yes	☐ No	☐ Don't know
Motor repair facility	☒ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☒ No	☐ Don't know
Photo developing laboratory	☐ Yes	☒ No	☐ Don't know
Plating shop	☐ Yes	☒ No	☐ Don't know
Medical or dental facility	☒ Yes	☐ No	☐ Don't know
Junkyard or landfill	☒ Yes	☐ No	☐ Don't know
Training area	☒ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☒ Yes	☐ No	☐ Don't know

Please describe: Mr. Winn was not aware of a hospital on the installation. He indicated that there once was an infirmary. He indicated that medical, fueling, maintenance/repair, and waste disposal facilities are present at NECD.

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☒ Yes	☐ No	☐ Don't know
Automotive batteries	☒ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☒ Yes	☐ No	☐ Don't know
Hazardous materials	☒ Yes	☐ No	☐ Don't know
Industrial batteries	☒ Yes	☐ No	☐ Don't know
Paints	☒ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☒ Yes	☐ No	☐ Don't know
Petroleum products	☒ Yes	☐ No	☐ Don't know
Radioactive materials	☒ Yes	☐ No	☐ Don't know

Please describe: Mr. Winn indicated that all types of hazardous materials have been stored at NECD.

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☒ No	☐ Don't know
Automotive batteries	☐ Yes	☒ No	☐ Don't know
Hazardous substances	☐ Yes	☒ No	☐ Don't know
Industrial batteries	☐ Yes	☒ No	☐ Don't know
Ordnance/explosives	☐ Yes	☒ No	☐ Don't know
Paints	☐ Yes	☒ No	☐ Don't know
Pesticides	☐ Yes	☒ No	☐ Don't know
Petroleum products	☐ Yes	☒ No	☐ Don't know
Tires	☐ Yes	☒ No	☐ Don't know
Any other waste materials	☐ Yes	☒ No	☐ Don't know

Please describe: Mr. Winn indicated that he is not aware of any dumping, burial, or burning. He is only able to speak of NECD activities during the past 28 years.

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☒ No ☐ Don't know

Please describe: There have not been any significant releases since Mr. Winn has worked with the fire department.

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☒ Yes ☐ No ☐ Don't know

Please describe: Mr. Winn discussed the small arms range on the property. No concerns were noted.

12. Was any of the property used for **fire training**? ☒ Yes ☐ No ☐ Don't know

Please describe: Fire training was conducted in the location of the Scrap Yard. Railroad ties were burned in that area approximately 10 to 15 years ago.

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

Additional Information:

Mr. Winn was not aware of rad waste being disposed of in the deep well. He explained that the deep well was pumped and sludge was removed. It was then filled with cement.

HUNTERS

THIS PAGE WAS INTENTIONALLY LEFT BLANK

ECP PERSONNEL INTERVIEW QUESTIONNAIRE
Newport Chemical Depot, Newport, IN

Interview Date: 1/31/07

Interviewee: Al Haug **Affiliation:** Interviewed in his capacity as a hunter due to report of suspicious materials

Title: Hunter **Telephone No.:**

☐ **Made Call** ☐ **Received Call** **Meeting at:** NECD Installation

Interviewee Background

1. Please provide job title at or in relation to the installation, date range for each title, your responsibilities, and areas of oversight (area/building/site-wide) in chronological order.

Title	Date Range	Areas of Responsibility/Oversight
Hunter		

2. To the best of your knowledge, please describe the **history** of the site: Has hunted in the TNT-BG and the railroad bed to the west of the TNT-BG. Has hunted in the Scrap Yard Area and has hunted in the RDX-MA Area.

3. Is the property or any **adjoining property** used for any of the following?

Gasoline/fueling station	☐ Yes	☐ No	☐ Don't know
Motor repair facility	☐ Yes	☐ No	☐ Don't know
Dry cleaners	☐ Yes	☐ No	☐ Don't know
Photo developing laboratory	☐ Yes	☐ No	☐ Don't know
Plating shop	☐ Yes	☐ No	☐ Don't know
Medical or dental facility	☐ Yes	☐ No	☐ Don't know
Junkyard or landfill	☐ Yes	☐ No	☐ Don't know
Training area	☐ Yes	☐ No	☐ Don't know
Waste treatment, storage, disposal, processing or recycling facility	☐ Yes	☐ No	☐ Don't know

Please describe:

4. Are there currently, or have there been previously, any of the following **stored** on or used at the property or any adjoining property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Drums, sacks, cartons, or bulk chemical containers	☐ Yes	☐ No	☐ Don't know
Hazardous materials	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides (insecticides, herbicides, fungicides, avicides, rodenticides)	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Radioactive materials	☐ Yes	☐ No	☐ Don't know

Please describe:

5. To the best of your knowledge, have any of the following been **dumped**, buried and/or burned on the property?

Asbestos	☐ Yes	☐ No	☐ Don't know
Automotive batteries	☐ Yes	☐ No	☐ Don't know
Hazardous substances	☐ Yes	☐ No	☐ Don't know
Industrial batteries	☐ Yes	☐ No	☐ Don't know
Ordnance/explosives	☐ Yes	☐ No	☐ Don't know
Paints	☐ Yes	☐ No	☐ Don't know
Pesticides	☐ Yes	☐ No	☐ Don't know
Petroleum products	☐ Yes	☐ No	☐ Don't know
Tires	☐ Yes	☐ No	☐ Don't know
Any other waste materials	☒ Yes	☐ No	☐ Don't know

Please describe: Observed ceramic cylinders and drums or heating oil tanks in the area north/northeast of the RDX-MA when hunting there in December of 2006. Mr. Haug pointed out these areas on the map. He has not observed any other suspicious materials while onsite at NECD

6. How were **hazardous materials** used at the site disposed of? Please describe:

7. Was **mercury** used or contained in any machinery parts; electrical, pressure, vacuum instruments; sprinkler check valves; or other items? ☐ Yes ☐ No ☐ Don't know

Please describe:

8. Have there been any **discharges/spills** of hazardous materials or petroleum products and their derivatives on the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

9. Which **regulatory agencies** were notified of the discharge/spill? Please describe:

10. Was soil and/or groundwater affected as a result of the discharges/spills? ☐ Yes ☐ No ☐ Don't know
Were discharges/spilled **remediated**, and if so how? ☐ Yes ☐ No ☐ Don't know

Please describe:

11. Was any of the property used as a **firing and/or bombing range** (including skeet/trap and indoor ranges)?
☐ Yes ☐ No ☐ Don't know

Please describe:

12. Was any of the property used for **fire training**? ☐ Yes ☐ No ☐ Don't know

Please describe:

13. Was there a **pesticide** shop, storage or mixing area located onsite? ☐ Yes ☐ No ☐ Don't know

Please describe:

14. Have there been any **demolition** activities in this area or in relation to this facility? ☐ Yes ☐ No ☐ Don't know

Please describe:

15. Are there currently, or have there been previously, any **pits, ponds, or lagoons** located on the property in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☐ Don't know

Please describe:

16. If **wastewater** was generated at the site, where/how was it treated? Please describe:

17. Does the property **discharge wastewater** on or adjacent to the property? ☐ Yes ☐ No ☐ Don't know

Please describe:

18. Do you have knowledge of any documented **environmental violations** or environmental liens associated with the site?
☐ Yes ☐ No

Please describe:

19. Do you have knowledge of any environmental issues or information regarding **properties adjacent to the site**?
☐ Yes ☐ No

Please describe:

20. Are you aware of any other **past activities** or events or have you made any observations that you feel might be useful to this study? ? ☐ Yes ☐ No

Please describe:

21. Do you have knowledge of any **other people** who may have additional knowledge of activities at the site?
☐ Yes ☐ No

Please provide names:

22. Do you have knowledge of any documents that may provide **additional useful information** on potential impacts to the environment at the site? Examples: environmental assessment reports, audits, permits, AST/UST registrations, MSDSs, community right-to-know plans, hydrogeologic reports, notices or other correspondence relating to past or current violations of environmental laws, SPCCs, hazardous waste generator notices, etc.? ☐ Yes ☐ No

Please provide names:

AGRICULTURAL LESSEES

THIS PAGE WAS INTENTIONALLY LEFT BLANK

ECP AGRICULTURAL LESSEE QUESTIONNAIRE
Newport Chemical Depot, Newport, Indiana

Date: 2/22/07

Business Name: Area Farma-

Address: 773 Wilde Oak Rd

City: Mecca **State:** IN **Zip** 37101

Person Completing Questionnaire: Eric Farm **Telephone No.:** 931-584-3279

Agricultural Tracts Leased: AL-Y1

1. How long have you leased this/these facilities? 2004

2. Have you held leases on tracts of land at the installation that you no longer lease? ☑ Yes ☐ No
   If yes, which ones? How long? AL E2 1 yr.

If you answer yes to any of the following questions, please provide information in the space available. If you lease more than one tract, please specify the facility to which the answer applies. Continue answers under No. 17 (Additional Information) if necessary.

3. What exactly is performed on the tract(s)? agricultural farming corn / bean rotation

Please explain:

4. Is there currently, or has there been in the past, any contaminated soil on the tract? ☐ Yes ☐ No ☑ Don't Know
   Tract No(s):

Please explain:

5. Have you noticed any areas where contaminated soil may be present? (Contaminated soil may be indicated by areas of no or limited vegetation growth, stains unlike the surrounding soil or debris within or on the soil (such as flakes or colored particles) ☐ Yes ☑ No ☐ Don't Know Tract No(s): AL Y1

Please explain:

6. Has fill dirt been brought onto the tract that originated from a contaminated site or that is of an unknown origin?
   ☐ Yes ☐ No ☑ Don't Know Tract No(s): Not by us AL Y1

Please explain:

7. Are there currently, or have there previously been, any damaged or discarded automotive or industrial batteries, or pesticides, paints, or chemicals in individual containers of greater than 5 gallons stored on or used on the tract?
   ☐ Yes ☑ No ☐ Don't know Tract No(s): AL Y1

Please explain:

8. Are there currently, or have there been in the past, any industrial drums (typically 55 gallons) or sacks of chemicals located on the tract? ☐ Yes ☐ No ☑ Don't know Tract No(s): AL Y1

Please explain:

9. Are there currently, or have there been, any pits, ponds or lagoons located on the tract in connection with waste treatment or waste disposal? ☐ Yes ☑ No ☐ Don't know Tract No(s): AL Y1

Please explain:

10. Are there currently, or have there been any registered or unregistered storage tanks (above ground or underground) located on the tract? ☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

11. Have you seen any vent pipes, fill pipes or openings that indicate access to a fill pipe protruding from the ground on the tract? ☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

12. If there are any structures on the tract, are there currently, or have there been in the past, any flooring, drains, or walls located within the facility that are stained by substances other than water or are emitting foul odors?
☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

13. If the tract that you lease is served by a private well or non-public water system, have contaminants been identified in the well or system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any government environmental/health agency? ☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

14. Have any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries or any other waste materials been dumped above grade, buried and/or burned on the tract?
☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

15. Have you noticed if there are any transformers, capacitors, or hydraulic equipment on the tract that may indicate the presence of PCBs? ☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

16. Are you aware of any other past activities or events or have you made any observations that you feel might be useful to this study? ☐ Yes ☑ No ☐ Don't know Tract No(s): ALL

Please explain:

Please explain:

9. Are there currently, or have there been, any pits, ponds or lagoons located on the tract in connection with waste treatment or waste disposal? ☐ Yes ☒ No ☐ Don't know Tract No(s):

Please explain:

10. Are there currently, or have there been, any registered or unregistered storage tanks (above ground or underground) located on the tract? ___ Yes X No ___ Don't know Tract No(s):

Please explain:

11. Have you seen any vent pipes, fill pipes or openings that indicate access to a fill pipe protruding from the ground on the tract? ___ Yes X No ___ Don't know Tract No(s):

Please explain:

12. If there are any structures on the tract, are there currently, or have there been in the past, any flooring, drains, or walls located within the facility that are stained by substances other than water or are emitting foul odors?
___ Yes ___ No X Don't know Tract No(s):

Please explain:

13. If the tract that you lease is served by a private well or non-public water system, have contaminants been identified in the well or system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any government environmental/health agency? ___ Yes X No ___ Don't know Tract No(s):

Please explain:

14. Have any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries or any other waste materials been dumped above grade, buried and/or burned on the tract?
___ Yes X No ___ Don't know Tract No(s):

Please explain:

15. Have you noticed if there are any transformers, capacitors, or hydraulic equipment on the tract that may indicate the presence of PCBs? ___ Yes X No ___ Don't know Tract No(s):

Please explain:

16. Are you aware of any other past activities or events or have you made any observations that you feel might be useful to this study? ___ Yes X No ___ Don't know Tract No(s):

Please explain:

17. Additional Information:

All tree planting and prairie grass areas were prepared by Mr. Hollingsworth. They plowed and disked areas. Did not notice anything unusual.

Agricultural Tracts Leased:	B, C, D.D., E.E., H.H., K.K., L.L., N.N., 2.2., Y3				

1. How long have you leased this/these facilities? 7 years

2. Have you held leases on tracts of land at the installation that you no longer lease? ☒ Yes ☐ No
   If yes, which ones? How long? G, M.M., Y1, P.P., D.E. for 1 to 3 years

If you answer yes to any of the following questions, please provide information in the space available. If you lease more than one tract, please specify the facility to which the answer applies. Continue answers under No. 17 (Additional Information) if necessary.

3. What exactly is performed on the tract(s)?

Please explain: farming corn and beans

4. Is there currently, or has there been in the past, any contaminated soil on the tract? ☐ Yes ☐ No ☒ Don't Know
   Tract No(s):

Please explain:

5. Have you noticed any areas where contaminated soil may be present? (Contaminated soil may be indicated by areas of no or limited vegetation growth, stains unlike the surrounding soil or debris within or on the soil (such as flakes or colored particles) ☐ Yes ☒ No ☐ Don't Know Tract No(s):

Please explain:

6. Has fill dirt been brought onto the tract that originated from a contaminated site or that is of an unknown origin?
   ☐ Yes ☒ No ☐ Don't Know Tract No(s):

Please explain:

7. Are there currently, or have there previously been, any damaged or discarded automotive or industrial batteries, or pesticides, paints, or chemicals in individual containers of greater than 5 gallons stored on or used on the tract?
   ☐ Yes ☒ No ☐ Don't know Tract No(s):

Please explain:

8. Are there currently, or have there been in the past, any industrial drums (typically 55 gallons) or sacks of chemicals located on the tract? ☐ Yes ☐ No ☒ Don't know Tract No(s):

Please explain:

9. Are there currently, or have there been, any pits, ponds or lagoons located on the tract in connection with waste treatment or waste disposal? ☐ Yes ☐ No ☒ Don't know Tract No(s):

Please explain:

10. Are there currently, or have there been, any registered or unregistered storage tanks (above ground or underground) located on the tract? ☐ Yes ☐ No ☒ Don't know Tract No(s):

Please explain:

APPENDIX F
RADIOLOGICAL HISTORICAL SITE ASSESSMENT

THIS PAGE WAS INTENTIONALLY LEFT BLANK

APPENDIX F

RADIOLOGICAL HISTORICAL SITE ASSESSMENT – APRIL 11, 2007

EXECUTIVE SUMMARY

SAIC has evaluated available evidence involving the use of radioactive materials at NECD. Radioactive materials possessed at NECD are known to include sealed sources containing cesium-137, nickel-63, and americium-241. There is no record to indicate that any such sealed sources exhibited leakage exceeding the regulatory threshold and thus could reasonably contribute to the potential for radiological contamination of the facility. Although no record has been identified to date to indicate that unsealed radioactive materials existed at NECD, the AEC's P-9 Pilot Plant and Dana Heavy Water Plant may have used unsealed radioactive materials with the potential to impact the environment on the installation. X-ray devices used at NECD would not result in residual radioactivity. Based on a review of documentation provided by DOE, there is sufficient information in historical and design documents to reasonably conclude that there is a low probability that the processes employed at the Dana Heavy Water Plant have resulted in radiological contamination.

RADIOLOGICAL CONSIDERATIONS FOR NEWPORT CHEMICAL DEPOT

The PER (USAEC 2006) summarized the radiological information from the initial Installation Assessment and other documentation.

Section 4.1.2.2 (Process Descriptions) notes the existence of "Heavy Water Production, Manhattan Project," "Laboratories" including "Medical Laboratory Building 7700" and "Medical" facilities consisting of the "Health Clinic (1973)" and "Hospital/Medical Center (2001)".

Section 5.1.7 (NRC Licenses) deals with the possible presence of radioactive materials and associated contamination at NECD. Excerpts are included verbatim below with associated relevant information:

1) *"The Initial Installation Assessment discussed the former laboratory (in the TNT area) used by the US Army Corps of Engineers that used a cesium 137 radioactive source. At the time of the IIA, the laboratory was no longer operating and the source was no longer at the site."*

   Investigation failed to reveal use of any cesium-137 or other radioactive materials by USACE, although such use is plausible given that instruments containing sealed radiation sources are commonly used in soil moisture density testers, lead paint analyzers, and in laboratories in gas chromatographs. Investigation reveals that sealed cesium-137 radiation sources were used within the VX Production Facility for three fill lines (M55 Rocket, M23 Land Mine, and M121A1/M256 Projectile) to verify compliance with applicable fill requirements for these munitions. It was also confirmed that cesium-137 sources were not used in the TNT or RDX facilities (Personal Communication 2006).

   An inter-office memorandum (Subject: Munitions Control Section Activities for the Month of August 1968) dated September 6, 1968 notes that "The four Cesium 137 radioisotope sources were transferred to Mr. Robert Dean, Edgewood Arsenal. The Byproduct Licenses issued to FMC Corporation, NAAP, have been cancelled." An inter-office memorandum (Subject: Monthly Report for August, 1968 Production Department) dated September 9, 1968 reiterates this information. These sources were possessed under the authority of AEC Byproduct Material License 13-07499-01 and were assessed on June 27, 1967, and confirmed to not exhibit leakage (FMC 1967).

NRC Byproduct Material License 13-24726-02 was issued to Mason and Hanger Corporation pursuant to applications dated June 23, 1986 and January 8, 1992 to authorize possession of radioactive materials (americium-241 and nickel-63) contained within sealed sources in Army Chemical Agent Monitors and Improved Chemical Agent Monitors. The last inspection of activities performed under this license was in 1992. This license was terminated on May 22, 2002 because duplicate licensing applied as the items involved also were authorized by centralized Army Byproduct Material License 19-30563-01 issued by NRC Region I to the U.S. Army Soldier and Biological Chemical Command (SBCCOM), Aberdeen Proving Ground, Maryland.

Leak testing of sealed sources is mandated by Federal (and Army) regulations at the time of source manufacture and at 3- or 6-month intervals throughout their operational lives. This testing is to confirm that the sources are of the appropriate initial quality and do not degrade over time such that they present a potential contamination hazard. Routine periodic license compliance inspections performed by NRC and its predecessor, AEC, include reviews of leak test results to ensure that required testing has been performed and that sealed sources are not leaking. In addition, USACHPPM and its predecessor agency, USAEHA, have routinely performed radiological surveys of Army activities possessing radioactive material for at least 40 years. Reviews of leak testing records are also an integral part of these radiation safety program evaluations.

Any sources determined to be leaking would be removed from service, investigated to find the reason for the leak, an assessment performed to determine whether the leaking source has resulted in contamination, decontaminate potentially contaminated areas as appropriate, document the incident, and provide formal notice of the incident through command channels to regulatory agencies such as the NRC/AEC and EPA. Licenses (and Department of Army permits and authorizations for items not subject to licensing by the NRC/AEC) are not terminated until appropriate surveys have confirmed that all contamination has been remediated to applicable standards.

Given the requirements for leak testing of sealed sources, the relative rarity of leakage as evidenced by the FMC leak test confirming that sources were not leaking in 1967 and the absence of historical documentation to indicate that any sources leaked, it is highly unlikely that the sealed sources utilized at NECD resulted in contamination of the facility. The Army may, nonetheless, wish to perform records searches for additional leak testing reports and inspection and/or survey records to obtain confirmatory evidence that sealed sources did not impact the environment.

Note: Activities of DOE and its predecessor agencies (the MED, AEC and ERDA) have not generally been subject to regulation by the NRC or the associated licensing requirements. In addition, operations involving radium-226 and accelerator produced radionuclides were not subject to the authority of the NRC until 2005 and 11(e)(2) byproduct materials (i.e., uranium mill tailings) were not subject to control by the NRC until 1978. As such, NRC historical information would not be expected to include these types of activities. The Army controlled operations which were not subject to regulation by NRC using DARPs and DARAs issued pursuant to AR 385-11 and AMC Regulation 385-25.

2) *"The Initial Installation Assessment also mentioned the possible work on the Manhattan Project for a short time in 1945."*

Available information indicates that two MED/AEC facilities, the P-9 Plant and the Dana Heavy Water Plant, operated on what is now NECD and that much of the

information regarding these facilities was originally classified for national security reasons.

Information indicates that the P-9 Pilot Plant was the earlier of the two facilities. Limited information relative to the nature of operations of the P-9 Pilot Plant is contained within available historical records (e.g., a previously classified "AEC Research and Development Report" (CP-718). This information discusses neutron moderation and notes the "Radiation Hazard from Proposed P-9 Pile at 'X'" and "Calculations on the contamination produced in cooling water by a P-9 Plant with Al coating on the metal have been made." Neutron activation products and tritium contamination are commonly associated with neutron moderator studies and associated research. As such, a written request for information was provided to DOE, a successor agency to the AEC. DOE reviewed available historical records present in archives and made additional information available. This additional information included additional detail relative to both the P-9 Pilot Plant and Dana Heavy Water Plant. The additional records provided included information on operation of the plants and its potential for radiological contamination of NECD. Information derived from the additional historical documents indicates that the "P-9 Pilot Plant" (Dupont October 1950), was a predecessor to "a pilot plant test of the Dual-Temperature process for producing heavy water" (page 12, SRS Doc 121), which subsequently became the Dana Heavy Water Plant. Declassified AEC Research and Development Report CP-718 (undated) includes several statements supporting the conclusion that P-9 likely was a code for heavy water. As examples, text notes "P-9 as moderator"; "P-9 actually available will contain some H_2O contamination"; "diffusion coefficients in P-9 and graphite are more nearly equal"; "water is only about 5 times as effective as P-9 in slowing (instead of 25 times in the case of graphite)"; and goes on to discuss neutron moderation by P-9 and graphite soaked in P-9.

The second MED/AEC facility, the Dana Heavy Water Plant was initially "a part of the Wabash River Ordnance Works, identified as Plant No. 3," and was "constructed and operated by E.I. duPont deNemours and Company for the Manhattan District, Corps of Engineers. Operations were discontinued in June, 1945 and the plant was placed in standby" (duPont July 18, 1944 and IN.03 December 31, 1967). This plant also was known as the Newport Chemical Plant with the name subsequently being changed to the Dana Heavy Water Plant (DOE letter IN.03-02 May 29, 1987). The plant was officially designated as a DOE facility from 1943 to 1957. It is notable that "Linking Legacies" (DOE EM-0319, 1997) states that "The Dana Heavy Water Plant in Newport, Indiana operated from April 1951 until May 1957, and remained on standby until July 1959."

Notably, the Dana Heavy Water Plant (i.e., Plant No. 3) apparently began as a second "pilot plant test of the Dual-Temperature process for producing heavy water" and that "The pilot plant was designed, equipment was purchased, and plant erected in the summer of 1950 by the Girdler Corporation, adjacent to the Atomic Energy Commission's P-9 plant near Dana, Indiana." (DOE SRS 121, pages 12 and 17 of 237). This facility was placed into operation in September 1950. (U.S. Department of Labor Docket Number 10237-2003 dated April 4, 2003).

A large number of documents were reviewed to assess the potential for radiological contamination as a result of operation of the P-9 Pilot Plant and Dana Heavy Water Plant. Major MED/AEC documents reviewed included:

- Dana Plant Engineering and Design History, The Girdler Corporation for AEC, September 1952

- AEC Research and Development Report DP-400 entitled "Production of Heavy Water, Savannah River and Dana Plants, Technical Manual" July 1959.

Review of available documentation supports the conclusion that it is unlikely that MED/AEC operations at the P-9 Pilot Plant or Dana Heavy Water Plant would have resulted in radiological contamination at what is now known as the Newport Chemical Depot. A more comprehensive review of historical archives can, nonetheless, be performed if the Army desires additional supporting evidence.

Six former employees at the Dana Heavy Water Plant were compensated in recent years under the Energy Employees Occupational Illness Compensation Program (EEOICP). To date, the basis for such compensation has not been confirmed but may have been the result of exposure to nonradioactive constituents (e.g., beryllium). If such compensation was the result of exposure to radiation, the associated implications with respect to potential environmental impact should be assessed.

3) *"The Initial Installation Assessment stated that radioactive sources (cesium-137) was used for meteorology but that all sources had been removed."*

No information was been located to support the conclusion that radioactive sources were used for meteorology at NECD. It is reasonable that this may have been a typographical error and that the sources were for "metrology" rather than "meteorology" and that the sources in question were the cesium-137 sources used for measurement of munitions fill. In this event, the comments in paragraph 2a(1) above would apply.

4) *"Three buildings at NECD [7700, P3012, and P3045] are used for medical purposes and may have radioactive concerns." (USAEC 2006)*

Among the characteristics of radiopharmaceuticals is a short half-life. As an example, I-123 and I-131, common isotopes for thyroid studies, have half-lives of 13 hours and 8 days, respectively. Given that radiopharmaceutical decay such that there is essentially no material present after about 10 half-lives, they have limited potential to serve as contaminants. Irrespective of this fact, Mr. Michael Orn, NECD, investigated to confirm that there is no record of any operations involving radiopharmaceuticals being conducted at NECD (Personal Communication 2006). (Gamma and X-ray radiation have the capacity for inducing radioactivity in other materials only at very high energies [far above the range used for radiography]; thus, use of medical or industrial X-rays do not result in contamination.)

5) *"Industrial X-Ray equipment"*

Industrial X-ray equipment would not result in residual radioactivity.

6) *"Sources"*

The following summarizes investigation of the potential for other regulated sources of radioactive materials used at NECD.

Telephonic communication between Mr. Ray Heber, Mason and Hanger, facility Radiation Safety Officer and a veteran employee at the facility since 1977, and Mr. Chambers, SAIC, indicated that the only radiation sources that Mr. Heber knew to have been used at NECD were X-ray devices and sealed sources present within smoke alarms, M8A1 chemical agent alarms, chemical agent monitors, and improved chemical agent monitors (Personal Communication 2006).

The NRC's ADAMS data base was searched to determine whether one or more specific NRC licenses had previously been issued to NECD or its predecessor organizations. Although there was no indication of the issuance of such licenses to NECD or its predecessor organizations was noted, NRC Byproduct Material License 13-24726-02 was issued to Mason and Hanger Corporation pursuant to applications dated June 23, 1986 and January 8, 1992 to authorize possession of radioactive materials (americium-241 and nickel-63) contained within sealed sources in Army Chemical Agent Monitors and Improved Chemical Agent Monitors. In addition, an AEC license was issued to FMC Corporation prior to 1968 authorizing possession of cesium-137 contained within sealed sources. This license was terminated in 1968 upon transfer of the sources to Edgewood Arsenal, Maryland. Given that materials authorized by these licenses were limited solely to the possession of sealed sources, operations associated with the licenses would not be expected to result in the potential for contamination unless sources leaked as a consequence of poor design or manufacturing or were involved in accidents or incidents involving breach of the sources' protective covers (e.g., by fire or mechanical breakage). No information was noted to indicate that leakage of sealed sources occurred at NECD. Further, no licenses or other information was noted, which would reasonably indicate that radioactive material in unsealed forms were possessed at NECD.

One potential source of radiological contamination identified by personnel from the U.S. Army Center for Health Promotion and Preventive Medicine (USACHPPM) was the storage of depleted uranium munitions. Investigation revealed that the Army Field Support Command (formerly known as the Operations Support Command and as the Industrial Operations Command) maintains NRC license SUC-1380, which authorizes Army possession of depleted uranium (DU) munitions. Telephonic communication with Messrs. Kelly Crooks and Gary Buckrop of that command on January 4, 2007, indicated that NECD was not a bulk storage location for DU munitions and there was no known storage of depleted uranium at NECD. In addition, the Army has put forth a significant effort to perform radiological surveys of bulk storage facilities. These surveys have confirmed that depleted uranium munitions are sufficiently well-contained such that storage of DU munitions does not result in contamination of facilities used for their storage. If evidence is bulk storage of DU is found, survey requirements of U.S. Army Materiel Command Guidance dated February, 2004, and entitled "Radiological Surveys for Areas Where NRC-Licensed Commodities or Radium Containing Commodities Were Present," apply.

USACHPPM (and its predecessor, USAEHA) routinely perform(ed) radiological surveys/program evaluations of Army installations approximately every 3 years. Reports of radiological surveys of NECD were not located. The Army may wish to review such historical reports to the extent that they exist to ensure that any past operations, which may have resulted in radiological contamination are identified and appropriately evaluated.

POTENTIAL AREAS FOR FURTHER RESEARCH

Initial Installation Assessment—The Army may wish to review the technical and historical basis for references to the following in the Initial Installation Assessment to ensure appropriate levels of investigation:

- The use of cesium-137 sources by USACE in a former laboratory in the TNT area.
- That "radioactive sources (cesium-137) were used for meteorology at NECD."

P-9 Plant and Dana Heavy Water Plant—Historical information provided by DOE describing operations involving the potential for contamination associated with classified and unclassified MED/AEC operations occurring on NECD, especially with regard to the plants.

Review of "Records of War Assets Administration" held in the National Archive and Records Administration (NARA) facility for the Great Lakes Region (Boxes 129 and 130 were noted in unclassified documents as having records potentially relevant to the Dana Heavy Water Plant) and declassified MED/AEC records present within the NARA repository in Atlanta. Recent information suggests that approximately 300 boxes of documents exist in the Atlanta NARA facility regarding the Dana Heavy Water Plant and Dana Area Office. Search of these files may be appropriate if the Army desires additional supporting documentation.

Sealed Source Records—Review historical records present at NECD to determine what specific sealed sources were present at NECD and to review associated leak testing records for those sources as confirmatory evidence that sources did not leak.

Center for Health Promotion and Preventive Medicine Records—It appears as if radiological survey and program evaluation information was provided by the Center for Health Promotion and Preventive Medicine to AEC. The Army may wish to review this information to ensure that records relevant to the potential for radiological contamination have been fully considered.

U.S. Army Materiel Command Records—A wide variety of radioactive commodity items are routinely used or stored on Army installations. These items are managed by subordinate elements of the U.S. Army Materiel Command (AMC). The Army may wish to determine the types and quantities of commodities possessed or maintained at NECD. Upon completion of such an assessment, survey requirements of AMC Guidance dated February, 2004, and entitled "Radiological Surveys for Areas Where NRC-Licensed Commodities or Radium Containing Commodities Were Present," would apply for specific items.
