

Michigan

Michigan General Comments

- The Army intends to transform its active and reserve facilities in the state to gain a more efficient and effective organization to support Army requirements now and into the future by:
 - Transforming Detroit Arsenal into a multi-functional installation that serves as the home to a Life Cycle Management Command. Consolidating functions at Detroit reflect the Army's determination to transform its Materiel and Logistics base to keep pace with transformation of the combat forces.
 - Creating an installation portfolio that can support and sustain its new force structure, and missions as the Army transforms to an expeditionary force.
 - Creating a multi-functional reserve facility that will enhance unit readiness, increase training opportunities, and generate operational efficiencies.

Reserve Component

Gains:

- Build 1 Armed Forces Reserve Center on Ft Custer Reserve Training Center

Losses:

- Close 1 Army Reserve Center
- Close 1 Army Reserve Area Maintenance Support Activity

Detroit Arsenal

BRAC 2005 Recommendation:

BRAC 05 recommendations transforms Detroit Arsenal into a more specific and complete Life Cycle Management Command by enhancing its already multi-functional and joint missions associated with both ground combat and tactical wheeled vehicle systems by consolidating like functions from other installations into a single source. This results in multiple consolidations that directly impact all aspects of weapon system management and cost reductions in acquisition and personnel.

Gains:

- TACOM Integrated materiel management from Rock Island Arsenal
- Joint robotics program development and acquisition activities from Redstone Arsenal
- Ground Forces initiative Development & Acquisition activities from USMC Direct Reporting Program Manager, Woodbridge
- Command and selected staff move from United States Army Garrison Michigan

(Detroit Arsenal cont)

Losses:

- Supply functions and consumables items management from the Inventory Control Point to Columbus
- Sea Vehicle Development and Acquisition to Naval Surface Warfare Center, Bethesda and Program Management and Direction of Sea Vehicle Development and Acquisition to Naval Sea Systems Command, Washington Navy Yard

U.S. Army Garrison (Selfridge)

BRAC 2005 Recommendation:

BRAC 05 recommendations close U.S. Army Garrison Michigan (USAG-Michigan) at Selfridge. A Bridging Lab and Water Purification Lab located on Selfridge will be retained and enclaved. This is a result of recommendations to consolidate functions at multifunctional installations to gain synergies in the technical and industrial fields.

Gains:

- None, close US Army Garrison Michigan (Selfridge)

Losses:

- Enclave the bridging and water purification laboratories
