### **CONTRACTOR STATEMENT OF INDEPENDENT TECHNICAL REVIEW**

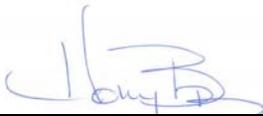

The Terraine-EnSafe Joint Venture has completed the Final Environmental Condition of Property Report for the Harry L. Twaddle Armed Forces Reserve Center (OK017) at 5316 South Douglas Boulevard in Oklahoma City, Oklahoma County, Oklahoma, performed under contract W912QR-04-D-0044, Delivery Order 0008. Notice is hereby given that an independent technical review has been conducted that is appropriate to the level of risk and complexity inherent in the project. During the independent technical review, compliance with established policy principles and procedures, utilizing justified and valid assumptions was verified. This included review of: assumptions; methods, procedures, and material used in analyses; alternatives evaluated; the appropriateness of data used and level of data obtained; and reasonableness of the results, including whether the product meets the customer's needs consistent with law and existing U.S. Army Corps of Engineers policy.

Significant concerns and the explanation of the resolution are as follows:

Comments from the USACE and other reviewers were compared to changes in the draft final report and no major technical concerns were identified.

As noted above, all concerns resulting from independent technical review of the project have been considered.
