

Redstone Arsenal

BRAC 2005 Recommendation:

BRAC 05 recommendations transform Redstone Arsenal into a more robust multi-functional installation that serves as the home to a Life Cycle Management Command (AMCOM), that is responsible for two high-dollar weapons system commodities (Aviation & Missiles). It further enhances the overall synergy of Army logistics by relocating, Headquarters, US Army Materiel Command to Redstone, an installation that includes various Field Operating Agencies and Headquarters that provide key Joint operation and research capability to all of DoD. The further addition of technical and research capacity to Redstone further enhances the total synergy of the DoD for rotary wing aviation and missile systems, and is further enhanced by partnering capabilities with the co-located NASA facilities at Redstone.

Gains:

- 2nd Recruiting Brigade from Ft Gillem
- Missile Defense Agency and Army Space and Missile Defense Command functions from lease space
- HQ Army Materiel Command and US Army Security Assistance Command from Ft Belvoir
- Aviation Technical Test Center from Ft Rucker to consolidate with Technical Test Center
- Rotary wing air platform research, development and acquisition from Warner-Robins Air Force Base

Losses:

- Missile and Munitions Center to Ft Lee
- Inventory Control Point functions for Aviation and Missile Consumable Items and procurement management and related support functions for Aviation and Missile Depot Level Repairables
- Joint Robotics program development and acquisitions to Detroit Arsenal
- Information Systems Development and Acquisition to Aberdeen Proving Ground
